Medis is transitioning to the medis.com global domain

We are officially informing you that on 19 April 2021 we at Medis will upgrade our existing e-mail addresses to a collective, global suffix @medis.com.

As of this date, our employees will use the e-mail address in this form:
name.surname@medis.com.

During the transition period until the end of 2021 or until further notice, the existing e-mail addresses, which are also valid in all official documents, will continue to function smoothly.
We therefore do not expect any communication problems.

Best regards,

Martina Perharič
CEO
